FREQUENTLY ASKED QUESTIONS

What is the Penny Press Machine?

Penny press machines are a fun and exciting way to turn a family trip or adventure into something memorable. Penny Men press machines are designed for both indoor & outdoor use, and offers a selection of four engravings, each one can be a variation of your company's logo or selected design. The machine is built of four transparent sides where everyone has fun watching the moving mechanics of the machine as the coin is pressed and turned into the engraved souvenir of their choice.

How does it work?

Customer indicates which engraving they want on their penny by turning the hand crank and pointing the image of the engraving to a highly visible arrow on the front of the machine. Next, they insert a 1 Euro coin as a charge and a five cent, they turn the hand crank a few times again, and the pressed coin souvenir is released into the dispenser.

How much space does it require?

Penny press machines only require 2sq feet of space (50cm x50cm) and no electric power is needed making this machine 100% environmentally friendly.

How much does it cost?

We incur all the expenses from designing the machine to its delivery

Is this safe for children?

Yes, 100% safe and easy to use.

Who collect those souvenirs?

Our machines have already proved incredibly successful in a number of USA, UK and European tourist attractions ranging from Museums, Aquariums and National Parks to Brand Stores, Souvenir Shops, Sport Clubs and many other tourist attractions with over 20 million collectors every year from kids aged 4 to 104

What is the legality?

The process of creating elongated coins is LEGAL in the USA, United Kingdom and parts of Europe. Because elongated coins are made mainly as souvenirs, mutilation for this purpose is legal. United Kingdom Coins can be legally pressed following the Forgery and Counterfeiting Act of 1981 This replaced the offence of defacing current coin Made in the 1936 Coinage Offences Act. We also offer TOKEN PRESS MACHINE that is legal in all the countries of the World.

Who does the service?

We pay for all costs associated with maintaining the penny press machine for a lifetime, plus customer service support is available 24/7.

How will it benefit my business?

An inexpensive and fun souvenir machine provides a customized memoir of your customers time at your venue and a positive reminder of your brand.

What is my revenue?

The revenue generated by the machine is then shared % between your Company and the Penny Men

How do i order?

If you believe that your venue too could also benefit greatly from this NO investment, high return machine please contact The Penny Men Europe today and we'll design a penny machine package that's right for you.

Do you provide other products ?

Yes, please continue on other pages to see our Medallion Machines, Coin Albums and Pennybandz.

Other products

We press pennies to remember the great time we are having or the exciting new place we are seeing. After the penny is pressed, it can be lovingly preserved in any one of The Penny Men's many beautiful coin albums for safe keeping or Pennybandz, a stylistic approach that lets you display your passion for all to see! Pennybandz hold on that memory in a bracelet or necklace so you can keep your magical adventures forever.

We offer these bracalets and necklaces in a wide variety of eye-popping colors to give your penny the bling it deserves.

Pennybandz are available for wholesale right now:
